S. BILL NO. 2680

RECEIVED BY: 

Introduced by Senator Ralph G. Recto

Explanatory Note

Today, the Filipino people is bracing for the impact of what is probably one of the most massive surges in the cost of public utilities in recent memory. The public helplessly watch by as a succession of increases in the price of goods and services relentlessly devour what is left of their purchasing power.

It is now more expensive to travel by public transportation as fare rates are up in buses, taxis and jeepneys. The Metro Rail Transit (MRT) is also set to increase fares. Plying our toll roads had just become almost unaffordable, while pump prices continue to hit the ceiling. Our phone, water and electric bills also steadily increase.

All of these unfold almost at the same time, as the Filipino consumer now turns to the government for relief. Unfortunately, this upsurge in the cost of basic necessities had been approved by government regulatory bodies despite heavy opposition from the public.

This fact tells us that the opinion of the public, as consumers and end-users of products and services, do not weigh heavily on public policy when the opposite should be true.

No less than the Philippine Constitution mandates that public participation, in the interest of transparency and effective governance, shall be promoted at all levels of social, political, and economic decision-making.

Furthermore, it is the duty of the State to provide for mechanisms in which the concerned sectors can actively participate, in particular, in the regulatory affairs of government.

Unfortunately, up to this day, a number of charters creating various government regulatory bodies – especially those concerned with determining rates of utilities, public transport, etc. – do not contain any provision of increasing public participation in their decision-making process.

As a result, numerous policy decisions in the past have been approved either without prior consultation from stakeholders or without full disclosure of its details in public forums, thereby compromising the ideals of participative policy-making and transparency.

This bill seeks to address all that.

Specifically, this measure aims to provide for the institutionalization of the participatory mechanisms for concerned stakeholders by including at least one (1) representative coming from consumer groups belonging to the sector being regulated by the government regulatory body concerned, amending the charters creating the following regulatory bodies:

1. Land Transportation and Franchising Regulatory Board;
2. Toll Regulatory Board;
3. Energy Regulatory Commission;
4. Manila Waterworks and Sewerage System; and

5. National Telecommunications Commission.

It calls for the creation of the position of Consumer Group Representative, who will sit at the Governing Boards of these regulatory bodies.

Once this bill is enacted into law, the public as a consumer would be well-represented in the Governing Boards of these regulatory bodies when they formulate public policy, particularly with regards to the approval of rate increases in the sector they regulate.

The bill also aims to prevent malicious activities and grave abuse of discretion committed by those who sit on the affected regulatory bodies because they will no longer be left unchecked as representatives of sectors concerned will have direct participation over decision-making affairs at the top level.

In view of the foregoing, the passage of this bill is earnestly sought.
