S. NO. 3161

RECEIVED BY: 

Introduced by Senator Antonio "Sonny" F. Trillanes IV

Explanatory Note

One of the primary strengths of the commission system is in the involvement of citizens in making decisions and evaluating the results for their own communities. Local ownership of process often brings more efficiency of service and greater leverage of resources. Residents of each community are involved in developing the plans, selecting programs and initiatives to implement the plans, and evaluating the results of that work.

Accordingly, the creation of Families Commission aims to provide for a progressive public and private leadership that shall work collaboratively to support and strengthen communities to improve the lives of Filipino families. Moreover, to actively speak out for Filipino families, the Commissioners and staff visit communities throughout the country to hear about their issues and promote the Commission's work. The Commission shall be committed to locally-driven, results-oriented change through:

- *informed and effective public policy;*
- *passionate voice and strong advocacy on behalf of families;*
- *engagement of diverse communities to plan and develop shared action on children's issues and;*
- *wise investment of resources with a preventative focus on healthy families.*

Thus, the *Families Commission Act*, once enacted, shall undertake research, provide policy advice, consult the public and provide information to families and those who work with them. These activities aim to improve services, policies and support for all Filipino families. The Commission shall be responsible for nationwide planning, standards setting and policy development, and provide communities with research-based best practices on which to base local programs for families.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
