#### EXPLANATORY NOTE

The Northern Samar Provincial Hospital has been instituted through the initiative of the national government in 1956. Since the provincial government administered its operation, it has an authorized bed capacity of one hundred (100). For the past fifty five years, the hospital has been able to render out-patient consultations as well as provide medical assistance to its in-patients. Distinct from other hospitals in Region VIII, it confers free and exclusive hospitalization for provincial government employees, inclusive of their dependents. Nonetheless, the population of the region, particularly in Northern Samar, has escalated extensively over time. Additional number of beds and upgraded equipment and facilities are crucial to serve greater number of patients.

In addition, the Northern Samar Provincial Hospital has been functioning as an affiliate institution formulating partnership with various nursing schools. As a nearby hospital located in Catarman, neighboring municipalities such as Bobon and Mondragon likewise avail medical services provided by the hospital. Easy accessibility to tertiary health care for less fortunate Filipinos from Samar Island is deemed necessary. Pursuant to of public service through legislation, I believe it is high time that we pass this bill in order to alleviate the plight of our needy fellowmen in Northern Samar.

Thus, the passage of this measure is earnestly sought.
