#### EXPLANATORY NOTE

The Zamboanga City Medical Center under Republic Act 7272 which took effect last March 24, 1992 was created to serve as the principal hospital facility of Region IX. The said, Medical Center has a minimum bed capacity of two hundred fifty (250). After almost two decades in service, the medical center needs to double its bed capacity from two fifty (250) to five hundred (500), to meet the medical requirement of an ever increasing population of the city and the region as a whole.

Geographically, the Zamboanga City Medical Center is strategically located; hence its accessibility is a major consideration not only to the residents of Zamboanga City but to the neighboring localities as well.

Thus, the passage of this bill is earnestly sought.

  
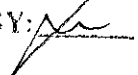

RAMON BONG REVILLA, JR.
