S.B. No. 118

Introduced by Senator LUISA "LOI" P. EJERCITO ESTRADA

EXPLANATORY NOTE

The Constitution, Article 2, Section 12, provides:

“The State recognizes the sanctity of family life and shall protect and strengthen the family as a basic autonomous social institution. It shall equally protect the life of the mother and the life of the unborn from conception. The natural and primary right and duty of parents in the rearing of the youth for civic efficiency and the development of moral character shall receive the support of the government.”

Women, confronted with unplanned or crisis pregnancy, are often left with the impression that abortion is the only choice that they have in dealing with their difficult circumstances.

This is due to their lack of accurate information, supportive counseling and other assistance regarding adoption and parenting alternatives to abortion.

While there are organizations that provide these needed services, they often lack sufficient resources to reach women in need of their services and to provide for their needs.

Hence, this bill seeks to establish a national program that will –

- (1) promote childbirth as a viable and positive alternative to abortion and empower those facing unplanned or crisis pregnancies to choose childbirth rather than abortion; and
- (2) extend support to entities and projects that provide information, counseling, and support services that assist women to choose childbirth and to make informed decisions regarding the choice of adoption or parenting with respect to their children.
