

FOURTEENTH CONGRESS OF THE REPUBLIC)
OF THE PHILIPPINES)
Third Regular Session)

OFFICE OF THE SECRETARY

9 DEC -7 AM 1:16

SENATE
S.B. No. **3552**

RECEIVED BY: 

Introduced by Senator Miriam Defensor Santiago

EXPLANATORY NOTE

Recent studies in the United States show that health disparities are a function of not only access to health care, but also the social determinants of health, including the environment, the physical structure of communities, nutrition and food options, educational attainment, employment, race, ethnicity, geography, and language preference that directly and indirectly affect the health, health care, and wellness of individuals and communities.

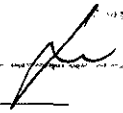

This bill authorizes the Secretary of Health, at the request of a broad-based community partnership, to designate a community that experiences disproportionate disparities in health status and health care as a health empowerment zone. It also requires officials to give priority in awarding competitive grants to grants used in or benefiting a health empowerment zone. Further, the bill directs the Health Secretary to provide:

- (1) Technical assistance (or grants) to entities seeking to form a community partnership or obtain a health empowerment zone designation for a community; and
- (2) Grants to community partnerships for implementation of the strategic plan for a health empowerment zone.
