SENATE
Senate Bill No. 1147

RECEIVED BY: *ja*

Introduced by Senator Cynthia A. Villar

EXPLANATORY NOTE

Entrepreneurship is the practice of starting new organizations or revitalizing mature organizations, particularly new businesses generally in response to identified opportunities. Entrepreneurship is often a difficult undertaking, as a vast majority of new businesses fail.

Entrepreneurial activities are substantially different depending on the type of organization that is being started. Entrepreneurship ranges in scale from solo projects (even involving the entrepreneur only part-time) to major undertakings creating many job opportunities.

Entrepreneurship is a key driver of our economy. Wealth and a high majority of jobs are created by small businesses started by entrepreneurially minded individuals, many of whom go on to create big businesses. People exposed to entrepreneurship frequently express that they have more opportunity to exercise creative freedoms, higher self esteem, and an overall greater sense of control over their own lives. As a result, many experienced business people political leaders, economists, and educators believe that fostering a robust entrepreneurial culture will maximize individual and collective economic and social success on a local, national, and global scale.

Entrepreneurship education in other countries starts as early as elementary school and progresses through all levels of education, including adult education.

The inclusion of entrepreneurship in the curriculum of our studies will allow for all these benefits to be reaped by the future generations which will allow our economy to flourish and emerge to one of the leading economies in Asia and the world, because truly, the Filipino has the potential to reach these heights. Urgent passage of this legislation is thus sought.
