RECEIVED BY *J...*

EXPLANATORY NOTE

It is the objective of the state to promote public safety in the transportation of passengers, particularly school children. To achieve this objective, it is essential that the state shall prescribe minimum design standards of school buses for the safety of the student passengers. Without such standards, we risk preventable dangers to our students caused by lack of due diligence from school bus operators.

This bill seeks to prescribe regulations to minimize vehicular accidents by prescribing safety standards for school buses.*
