S. No. 665

INTRODUCED BY HON. MANUEL B. VILLAR JR.

EXPLANATORY NOTE

One of the government's main concerns is to provide a special education program for physically disabled persons. Sadly however, our public elementary and secondary schools do not provide for special education classes.

This bill seeks to resolve this problem by creating special education classes for physically disabled persons who enroll in all public elementary and secondary schools in the country. This will be free of cost and will help the physically disabled develop their maximum potential and learning competencies – preparing them for civic efficiency and making them valuable assets to the community.

In view of the far-reaching impact of this important piece of social legislation, passage of this bill is earnestly recommended.
