AN ACT  
REVITALIZING THE COCONUT INDUSTRY, APPROPRIATING FUNDS  
THEREFOR AND FOR OTHER PURPOSES

EXPLANATORY NOTE

This bill is being filed as a counterpart measure of House Bill No. 1998 filed by Rep. Sharon Garin in the House of Representatives.

It is the policy of the State to recognize the essential role of coconut as a strategic, indigenous, replenishable and renewable source of livelihood for a great number of people.

The coconut industry, which covers 3.563 hectares or 26% of the total agricultural land in the country, is one of the biggest agricultural industries in the country. It produces an annual average of 15.2 billion coconuts, with over 24 million direct and indirect stakeholders in over 69 provinces in the country.

The Philippine Coconut Authority was created pursuant to Presidential Decree 232 in 1973 to promote the accelerated development of the coconut industry and to provide policy directions for such purpose. Subsequent legislations were also enacted for the same purpose, the last being Presidential Decree 1468 in 1978. However, said laws were created to address the conditions of the coconut industry almost 4 decades ago, making the present charter of the Philippine Coconut Authority undeniably deficient.

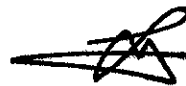

Thus, this bill brings about the necessary transformations to the Philippine Coconut Authority both at the policy and operational levels, by legislating a Coconut Industry Development Act which will provide an up-to-date overall strategic guidance to the industry. To implement the policy and objectives of this measure, a non-stock, government corporate entity known as the Philippine Coconut Industry Development Authority (PHILCIDA) is created and established, headed by a 7-member Board of Directors with its Chairman as head and Chief Executive Officer of the Authority.

This measure equips the PHILCIDA with solid and multifaceted mandate, which focuses on developmental, governmental, regulatory, research and development, and corporate powers and functions. It also provides assistance to coconut farmers through marketing assistance and other extension services to boost the yield and expand the income of coconut farmers, as well as intermediation and arranging services for investment, financing, and trade, among others. It also presents measures on rehabilitation and fertilization of coconut trees.

Removal of corporate restriction of PCA is also proposed to make it a profitable, sustainable, and development-oriented agency. In 2013, PCA had only a subsidy of around P939.750 million, equivalent to a mere 1.86% of the total allocation of the Department of Agriculture.

Research and development is also provided in the bill to cultivate a culture of scientific excellence and professionalism in its agricultural and industrial research and establish credence to the initiatives, findings, and innovations of PCA. This will allow the development and propagation of new discoveries and technologies.

In view of the foregoing, the passage of this measure is fervently sought.

AN ACT  
REVITALIZING THE COCONUT INDUSTRY, APPROPRIATING FUNDS  
THEREFOR AND FOR OTHER PURPOSES

ARTICLE I  
GENERAL PROVISIONS

1 SECTION 1. *Short Title.* - This Act shall be known as "*The Coconut Industry*  
2 *Development Act.*"  
3

4 SECTION 2. *Statement of Policy.* - It is the policy of the State to recognize the  
5 essential role of coconut as a strategic, indigenous, replenishable and renewable  
6 source of livelihood for a great number of people. Towards this end, the State shall  
7 promote the rapid, steady and continuous integrated development and growth of  
8 the coconut industry in all its aspects and ensure that the coconut farmers, farm  
9 workers, processors, lessees and tillers, and their families, shall become direct  
10 participants in, and beneficiaries of, such development and growth thereby  
11 increasing their income and uplifting their quality of life.  
12

13 As used in this Act, "coconut" shall encompass coconut trees and oil palm  
14 trees, and coconut and oil palm-based products and by-products.  
15

16 SECTION 3. *Goals and Objectives.* - Pursuant to the above-mentioned policy,  
17 the effort of government shall be directed towards the following goals and  
18 objectives:  
19

- 20 a) Promote the steady, accelerated, and orderly development of the coconut  
21 industry consistent with the agrarian reform policy of the government;  
22  
23 b) Develop and establish the coconut farming systems including but not  
24 limited to the establishment of model coconut farms;  
25  
26 c) Hasten and advance industrialization in the coconut industry and the  
27 diversification and proper utilization of coconut products and by-products,  
28 and oil palm products and by-products;  
29  
30 d) Promote the effective utilization and marketing of coconut products and by-  
31 products and oil palm products and by-products in the domestic and  
32 foreign markets and preserve the competitiveness and reliability of the  
33 country as a major producer and supplier of said products, by establishing  
34 national standards acceptable in the international market;  
35

- 1 e) To increase production by expanding the planting and replanting program  
2 of coconut trees in strategic areas identified as having the most potential  
3 and the rehabilitation and fertilization of existing coconut trees;  
4
- 5 f) Conduct scientific researches and investigations in all areas pertaining to  
6 agricultural, industrial, marketing and socio-economic aspect of the coconut  
7 industry and encourage the participation of small farm holders in research  
8 and technology;  
9
- 10 g) Encourage and promote the organization of coconut farmers cooperatives,  
11 associations, and organizations and provide them credit and financing  
12 schemes;  
13
- 14 h) Generate and disseminate information and communication to farmers,  
15 producers and other sectors to ensure the appreciation and adoption of  
16 appropriate technology and practices, inventions, as well as the proper  
17 awareness and correct understanding of issues and development in the  
18 coconut industry; and  
19
- 20 i) Coordinate and integrate all efforts of various agencies of government and  
21 provide general direction for the steady and orderly development of the  
22 industry.
