**EXPLANATORY NOTE**

The Constitution, Article XIII, Section 14, mandates that the State shall afford full protection to labor, local and overseas, organized and unorganized, and promote full employment and equality of employment opportunities for all. The Labor Code, Article 162 provides that the Secretary of Labor and Employment shall issue appropriate orders, set and enforce occupational safety and health standards in all workplaces and institute programs to ensure safe and healthful working conditions in all places of employment.

Presently, there is a lack of uniform warnings for personal protective equipment for occupation use. This situation has confused both employers and employees on the proper use of such equipment. This has increased worker exposure to workplace injuries and illness.

This bill seeks to provide Safety Warning Standards to reduce injuries and illnesses resulting from the faulty use of occupation equipment.
