**EXPLANATORY NOTE**

Though significant progress has been achieved fourteen years after the Omnibus Investment Code (Executive Order No. 226) was implemented, it must be admitted that much is left to be done for the Philippine economy to be at par with the other Asian economies.

Since the economy is an ever-changing landscape, the government must be ready to adapt to meet impending needs. The amendments proposed in this bill centers mainly on Section 39 of the E.O. No. 226, which re-aligns and updates the incentives granted to preferred industries.

Moreover, non-fiscal incentives are now provided to these preferred enterprises to further bolster the support that the government extends to these activities.

With the approval of this bill, it is hoped that the Philippine economy will be given the much needed boost.

Hence, approval of this bill is earnestly sought.
