SENATE

S.B. No. 904RECEIVED BY: 

Introduced by Sen. Jinggoy Ejercito Estrada

EXPLANATORY NOTE

The State recognizes the vital role of the youth in nation-building. It has the duty of providing them with necessary programs and infrastructures that will implement this objective.

For the past several years, there have been a considerable number of teenage pregnancy not only in foreign countries but also here in the Philippines. Probably due to the neo-colonial nature of our society wherein Filipinos, especially the youth imitates the way of life of their western counterparts, the liberal principles and outlook in life justified certain acts which used to be unusual in the norms of the Filipino custom. Hence, teenage pregnancy proliferated. Rich and poor, movie and television figures and ordinary citizens alike - they all cannot escape from the possibility of teenage pregnancy.

The government as well as private organizations have, in fact, several programs that address the problems of the young mothers. These programs, however, has to be reviewed and evaluated, hence this bill came into being. The evaluation of such programs will enable the authorities to strengthen and if needed, revise them for more applicable implementation. The bill intends to reduce the rate of teenage pregnancy to provide them and their future children the means to enjoy healthy and stable living.

For these reasons, the passage of this bills is earnestly sought.

JINGGOY EJERCITO ESTRADA
