SENATE

RECEIVED BY: 

S. No. 1109

Introduced by Senator Franklin M. Drilon

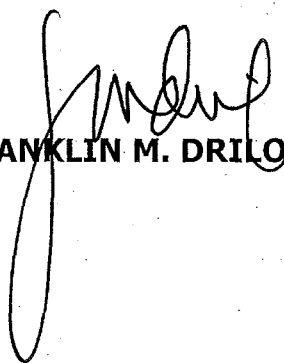

EXPLANATORY NOTE

Realizing the need to ensure the health of the overseas contract workers and their dependents, Executive Order No. 195 has been issued to provide for a medical program for the Filipino overseas workers anchored on the policy that the State shall adopt an integrated and comprehensive approach to health development, to afford full protection to labor, local and overseas, to protect the interest and promote the well-being of Filipino overseas contract workers including their families and dependents through the provision of social and welfare services.

This bill authorizing the creation of the OWWA Migrant Workers Hospital is necessitated by the fact that based on statistics, about 42% of all repatriated OCWs returned to the Philippines needing medical attention or hospital confinement for various physical or mental illnesses sustained abroad.

The present package of services under the Medical Care Program for OCWs and their dependents is limited to curative medical services. This bill aims to complement the present package so as to include supplementary provisions for preventive, promotive, diagnostic and rehabilitative programs so that a comprehensive/total health care for OCWs and their dependents can be had.

To ensure the availability, accessibility and affordability of quality health care to our migrant workers and their dependents, approval of this bill is earnestly sought.

FRANKLIN M. DRILON
