EXPLANATORY NOTE

The constitution, under Sec. 7, art. III, guarantees "The right of the people to information on matters of public concern shall be recognized. Access to official records, and to documents, and papers pertaining to official acts, transactions, or decisions, as well as to government research data used as basis for policy development, shall be afforded the citizen, subject to such limitations as may be provided by law".

This bill seeks to require full disclosure of the identity, nature of work, and compensation of foreign consultants hired or retained by the Government, its agencies, instrumentalities, including Government-owned or-controlled corporations.

There are three main objectives of this bill.

First, that the public be informed of how much money is being used to pay consultants hired by the Government.

Transparency in this regard is needed so that the public will know whether or not the consultancy fees paid these consultants are commensurate with the benefits that the Government is supposed to get from such consultancy contracts.

Second, that our people be appraised whether or not the services of these consultants are indispensable and cannot be rendered by our local experts.

Third, that the people's basic right to know who are providing expert advice and support to the Government be fully accorded them.

In fine, this bill is accordance with the constitutional mandate to make available to the people all information on matters of public concern.

The immediate passage of this bill is earnestly sought.

  
AQUILINO Q. PIMENTEL, JR.
