COLLECTIVE INVESTMENT SCHEMES LAW

EXPLANATORY NOTE

A 2014 study on the development of mutual funds in the Philippines have shown that mutual funds and other forms of collective investment schemes (CIS) have been thriving in the country in recent years as evidenced by the increasing number of assets under management and the growing number of investors. However, compared with other ASEAN countries, the Philippine mutual fund industry still lags behind and shows potential for further growth.

To ensure stability and consistency of regulation of all forms of CIS, existing differences in regulatory and tax treatment of CIS, as provided by varying laws and regulations, must be eliminated. Thus, this bill seeks the establishment of a favorable and comprehensive regulatory framework that will allow companies to facilitate the flow of investments and broaden investor participation. This bill also provides for a sole tax regime among the different forms of CIS.

The proposed measure further aims to balance the interests of the investors, by incorporating mechanisms that would safeguard the public interest, as well as recognize the interests of the other parties involved in the CIS industry, by giving them flexibility to expand their CIS businesses.

With the passage of this bill, it is anticipated that even middle to low income individuals will explore more investment opportunities in CIS, thereby gaining access to the capital markets and reaping the benefits thereof. The economy, in turn, is expected to benefit greatly from an expanded capital base.

Moreover, the Philippine mutual fund industry has to be prepared for the eventual ASEAN regional integration, with free movement of goods, services, investment, skilled labor, including capital under the 2015 ASEAN Economic Community. There is already an initiative called the ASEAN CIS Framework to launch cross-border offering of CIS, which has now initially operated in Malaysia, Thailand and Indonesia.

Under the framework, a company that has registered securities in the Philippines can bring the registration to other countries and offer shares to the citizens of those

countries. With greater opportunities and risks brought by this regional and global integration, there is an urgent need to strengthen our regulatory framework to prepare local investment companies to compete with regional counterparts which in turn, can help develop the industry by providing wider investment opportunities in foreign markets.

In view of the foregoing, the passage of the proposed measure is urgently sought.
