EXPLANATORY NOTE

The Constitution, Article 15 provides:

Section 1. The State recognizes the Filipino family as the foundation of the nation. Accordingly, it shall strengthen its solidarity and actively promote its total development.

The child, as part of the family, is one of the most important assets of the nation. Consequently, the State should exert every effort to promote the child's welfare and enhance his opportunities for a useful and happy life.

A child, separated from his family, loses the opportunity to develop in a wholesome and harmonious atmosphere conducive to his proper upbringing, particularly with respect to his preparation for adult life and the conscientious discharge of his civic duties as a whole.

Accordingly, this bill seeks to require hospitals: a) to establish and implement security procedures to reduce the likelihood of infant patient abduction and baby switching; and b) to devise procedures for identifying all infant patients in the hospital in a manner that ensures it will be evident if infants are missing from the hospital.
