EXPLANATORY NOTE

In a world of depleting natural resources there is now a need to institute measures that would bring about conservation and preservation of the country's meager resources at all levels. One of the means to achieve this is to establish mechanisms for the use of recyclable and biodegradable materials particularly in the manufacturing process of consumer goods.

Hence, this bill provides for the mandated use of biodegradable and recyclable materials in consumer product packaging with the end in view of providing a level of conservation at the manufacturing level.

Immediate passage of this bill is thus earnestly recommended.
