

EIGHTEENTH CONGRESS OF THE)
REPUBLIC OF THE PHILIPPINES)
Second Regular Session)

SENATE
S.B. No. 1937

Introduced by **SENATOR IMEE R. MARCOS**

AN ACT PROHIBITING UNTRACEABLE FIREARMS, PROVIDING PENALTIES THEREFOR, AND FOR OTHER PURPOSES

EXPLANATORY NOTE

Art. II, Section 5 of the 1987 Constitution provides that, "*The maintenance of peace and order, the protection of life, liberty, and property, and promotion of the general welfare are essential for the enjoyment by all the people of the blessings of democracy.*"

The proliferation of loose or unregistered firearms have been the major concern of law enforcement agencies for decades and statistics show that more than 90 percent (90%) of all crime incidents involved the use of loose or unregistered firearms. In the recent years, law enforcement agencies in many parts of the world have voiced their concerns on the existence of ghost guns. Ghost Guns refer to firearms, including frames or receivers, which lack serial numbers engraved on the frames or receivers by a licensed manufacturer, importer, or dealer, including those made through three-dimensional (3D) printing machines.

These undetectable and untraceable firearms are illegal. The United Nations on Drugs and Crime (UNODC) has reported that with the advent of 3D printing, illegal software produced individual 3D printed firearms that looked rather unlike weapons on the legal market and pose a grave threat to public safety.

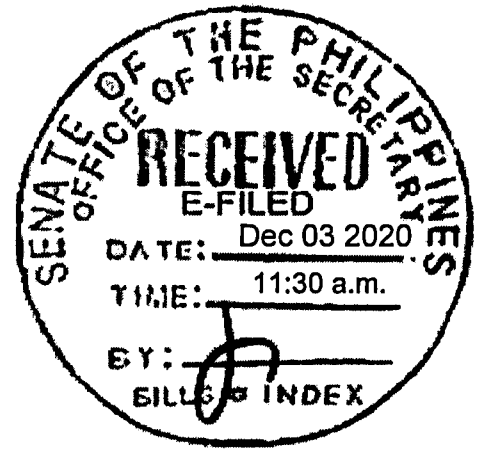

With the advent of three-dimensional (3D) printing, 3D printed firearms have become an emerging source of illicit firearms. The said 3D printed firearms or ghost guns are untraceable and are mostly or entirely made of materials undetectable by traditional security scanning systems. Thus, the State should act immediately in putting a stop to the illicit manufacturing of and trafficking of firearms, their parts, components and ammunitions that pose a major threat to the security and welfare of the people.

Thus, this bill seeks to penalize the manufacture, sale, offer to sell, transfer, purchase, import, acquire, possess, or receive a ghost gun or parts thereof, machinery, tool or instrument, including 3D printing machines used or intended to be used in the manufacture of ghost guns or parts thereof, among others, to put a stop and prevent the threat such firearm/s poses.

Given the abovementioned circumstances, the immediate passage of this bill is earnestly sought.

IMEE R. MARCOS
