**AN ACT
ESTABLISHING THE PHILIPPINE GERIATRIC CENTER UNDER THE
DEPARTMENT OF HEALTH AND APPROPRIATING FUNDS THEREFOR**

EXPLANATORY NOTE

In 2021, older people in the Philippines will exceed 10 million for the first time, according to the Commission on Population and Development (POPCOM)¹.

The country is projected to transition to an aging population between 2025 to 2030². The increasing number of older people will have implications for their pensions and their overall health.

To date, more than half or 55% of our senior citizens have no pension, 23% receive a pension from the private sector, 6% receive a pension from the government, and 16% receive a social pension of only P500³.

Furthermore, the Department of Health (DOH) reported geriatric wards' unavailability and a shortage of geriatricians⁴.

Most of our aging population have little to no financial means, making the highly specialized field of geriatric medical and long-term care even more out of reach. Thus, a need for accessible and quality health care for older people to respond to their health and medical conditions, risks, and vulnerabilities.

To this end, the bill seeks to establish and institutionalize a national center for geriatric health, a specialty hospital under the DOH, that will cater to older people's needs.

The geriatric center is envisioned to provide a full range of health care services to ensure our aging population's quality of life, become an end-referral center for all geriatric healthcare providers, and to stimulate research and training in geriatric health service.

It is our ardent hope that the establishment and institutionalization of the national center for geriatric health will contribute to addressing the vulnerabilities and burden of disease among our aging population.

Lastly, the bill is in remembrance of our elderlies who died due to COVID-19⁵, especially to our colleague in the House of Representatives, this 18th Congress, Senior Citizens Partylist Rep. Francisco G. Datol, Jr.⁶

As such, the immediate passage of this bill is earnestly sought.
