1 **SEC. 2. Manner of Operation of Stations or Facilities.** – The stations or
2 facilities of the grantee shall be constructed and operated in a manner as will, at most,
3 result only in the minimum interference on the wavelengths or frequencies of existing
4 stations or other stations which may be established by law, without in any way
5 diminishing its own right to use its assigned wavelengths or frequencies and the quality
6 of transmission or reception thereon as should maximize rendition of the grantee's
7 services or the availability thereof.

8
9 **SEC. 3. Authority of the National Telecommunications Commission.** – The
10 grantee shall secure from the National Telecommunications Commission (NTC) a
11 Certificate of Public Convenience and Necessity or the appropriate permits and
12 licenses for the construction, installation, and operation of its telecommunications
13 systems or facilities. In issuing the certificate, the NTC shall have the power to regulate
14 and impose such conditions relative to the construction, operation, maintenance, or
15 service level of the telecommunications systems or facilities. Such certificate shall
16 state the areas covered and the date the grantee shall commence the service. The

2 or variations thereof, shall be subject to the approval of the NTC or its legal successor.
3 The rates to be charged by the grantee shall be unbundled, separable, and distinct
