5 of a Filipino culture based on the principle of unity in diversity in a climate of free artistic  
6 and intellectual expression. Section 16 of the same Article declares that the country’s  
7 artistic and historic wealth constitutes the cultural treasure of the nation and shall be  
8 under the protection of the State which may regulate its disposition.

9       The State recognizes that motor vehicles are integral part of Philippine culture,  
10 embedded in its history and chronicles of government, transportation, industry, social life,  
11 and popular culture. The State acknowledges that surviving vintage vehicles, as well as  
12 their related tools, equipment, accessories, buildings, literature, and collectible ephemera,

3 conditions, the capability of its small and medium industries, and the quality of its human  
4 resource make it competitive in those markets. It is therefore the declared policy of the  
5 State to provide an environment that will encourage its entrepreneurs and industries to  
6 participate in those markets and permit its businessmen, technicians, and workforce to  
7 acquire the knowledge and skills necessary for the purpose. In furtherance of such  
8 policies, the State shall pursue the following objectives:

15           and medium industries that may participate in the international markets for  
16           the restoration and repair of vintage vehicles and the manufacture of their  
17           spare and replacement parts; and
