**AN ACT
PROVIDING FREE HEMODIALYSIS, PERITONEAL DIALYSIS, AND OTHER
DEPARTMENT OF HEALTH APPROVED DIALYSIS PROCEDURES TO ALL SENIOR
CITIZENS**

EXPLANATORY NOTE

Chronic Kidney Disease (CKD) is an important contributor to global mortality and morbidity¹. In 2017, CKD resulted in 1.2 million deaths worldwide². With the natural aging of the kidneys, CKD becomes more common with Increasing age. Conditions prevalent in senior citizens, such as heart diseases, high blood pressure, and diabetes, also damage the kidneys³.

CKD is largely preventable and treatable through dialysis procedures such as hemodialysis and peritoneal dialysis⁴. However, the cost of medical treatment for kidney diseases in the country remains highly expensive. The Philippine Health Insurance Corporation (Philhealth) only subsidizes 90 out of the 144 dialysis sessions needed in a year of treatment⁵. The COVID-19 pandemic magnified the physical and financial vulnerabilities of our senior citizens. Not only are they at a high risk of contracting the virus due to their pre-existing medical conditions, but also many senior citizens only rely on their social pension- a measly amount of P 500 they receive monthly. Finding other means of income or employment would be difficult after the age of 60⁶. With a case rate of P 2,500 per session of dialysis, we cannot expect that our senior citizens needing this life saving treatment will be capable of paying the remaining 54 sessions amounting to P

Consistent with Article XIII, Section 11 of the 1987 Constitution which seeks to endeavor to make essential goods and services available and affordable, especially for among others, the elderly, this bill seeks to provide free hemodialysis, peritoneal dialysis, and other Department of Health (DOH) approved dialysis procedures to senior citizens. To honor the efforts and contribution to society of our lolos and lolas, we must aid and safeguard them in their vulnerable state.

In view of the foregoing, the passage of this bill is earnestly sought.
