EXPLANATORY NOTE

Section 15 of Article II of the 1987 Philippine Constitution provides that "*The State shall protect and promote the right to health of the people and instill health consciousness among them.*"

The Kalinga Provincial Hospital through the years has provided affordable services to the residents of the Province of Kalinga and its neighboring provinces. It has also been the only hospital of its kind in the province that caters to the needs of the citizens, and for several years now, the hospital has more than 100% bed occupancy rate. The inadequate equipment and resources of the hospital, as well as its already undermanned workforce are further thinly spread among its numerous patients and cannot address the more specialized services for complex diseases, illnesses and injuries of its patients consisting mostly of indigents and underprivileged members of the community. Most of the patients cannot afford to go to regional and specialized hospitals in the neighboring provinces and in Metro Manila, and thus confined themselves to the meager resources of the hospital.

The conversion of the hospital to a regional hospital under the supervision of the Department of Health and accordingly upgrading its capability, facilities and personnel, as well as increasing its bed capacity, will firmly address the pressing medical needs of the people. With the passage of this bill, the Northern Cordillera Regional

Medical Center will be able to provide a more integrated, comprehensive, accessible and effective quality health care and services not only to the Province of Kalinga but also to its neighboring Provinces of Isabela, Apayao, Ifugao, Mountain Province and Abra.

For the foregoing reasons, the passage of this bill is earnestly sought.
