Senate Bill No. 423

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

All children are entitled to the rights guaranteed by the laws of our country. Without distinction and discrimination, as Article XV, Section 3 (2) of the Constitution states:

“The State shall defend the right of the children to assistance, including proper care and nutrition and special protection from all forms of neglect and abuse, cruelty, exploitation, and other conditions prejudicial to their development.”

This is magnified by the provisions of Presidential Decree 603 or the Child Welfare Code, as amended, on the Rights of the Child, providing that:

“Every child has the right to a balanced diet, adequate clothing, sufficient shelter, proper medical attention, and all the basic physical requirements of a healthy and vigorous life.” (Art. 3 (4)).

It is a major cause of concern despite all these safeguards, the rampant practice of certain hospitals' refusal to attend to the medical and dental needs of street children despite the immediacy and the urgency of such need due to the street children's inability to provide "deposits" is still practiced.

We should put an end to such practice by providing for a law that would require both public and private hospitals and clinics to render free medical and dental services to indigent children, and penalizing those who will violate such requirement. *This bill requires all medical institutions to extend health services to indigent children, which includes, but is not necessarily limited to, street children. Only through a concrete legislative measure can we fully realize the principles and policies sought to be effected by the various laws protecting the rights of the child.*

In line with the States evolving agenda on defending the rights of the child, the immediate passage of this bill is profoundly sought.
