EXPLANATORY NOTE

The establishment of a National High School in the Municipality of Tubungan, Province of Iloilo, is well-timed. It responds to the on-going education program of government to provide adequate and attainable opportunities to young people in the far-flung areas.

The need for education to raise the over-all command of life further underlies the importance of this measure. A progressive kind of education oriented towards both job skills and value such as that provided by the national government, can indeed lift community life to a comfortable level.

With the establishment of a National High School, the government will bring a new vigor to community life in Tubungan and its neighboring municipalities.

In view of the foregoing considerations, early approval of this bill is earnestly sought.
