SENATE

RECEIVED BY: 

Senate Bill No. 446

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

This bill seeks to protect and promote the health of the people, pursuant to the constitutional mandate as stated in Article II (2), Section 15 of the Constitution which reads:

"SEC. 15. The State shall protect and promote the right to health of the people and instill health consciousness among them."

Past experience has shown that military operations, whether the encounter is between the military and communist insurgents, or between government troops and military rebels, or during saturation drives or "zonings" conducted by the police, has left great civilian casualties. It is, thus, only proper that our government provides adequate help and support to the innocent individuals unfortunately caught and injured in the cross- fire or police drag- net.

At present, there is no law, which provides any form of aid or help to these innocent victims. Hence, the immediate approval and passage of this bill is urgently sought.
