Senate Bill No. 484

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

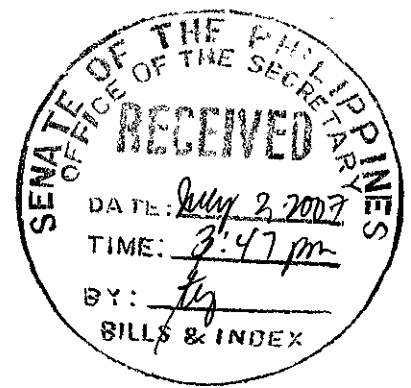

It is noticeable that one of the social and health services that our government continues to disregard is the availability of clean and sanitary public restrooms, especially in the Metropolis. More often than not, a person will have to go to a nearby mall, hotel, restaurant or any establishment in order to access a public restroom.

While Section 15 of the 1987 Constitution provides that "the State shall protect and promote the right to health of people and instill health consciousness among them," there is a need to construct clean and odorless restrooms not only along the national highways but also in public areas in cities and towns throughout the country.

Hence, the passage of this bill is earnestly sought.
