SENATE

RECEIVED BY 

Senate Bill No. 995

INTRODUCED BY HON. MANNY VILLAR

EXPLANATORY NOTE

The snowballing crusade around the world is the preservation and conservation of our natural heritage. The environmental cause has ceased to be a peripheral issue. Today, it already occupies center stage in world politics.

It is in the light of this concern that this bill is filed. Specifically, this measure sets a general policy to require manufacturers to use recyclable materials for the packaging of consumer products. By so doing, we would have contributed in a significant way of limiting the discharge of non-biodegradable elements in our environment.

Passage of this measure is urged.
