EXPLANATORY NOTE

This bill seeks to amend the Republic Act No. 7743 otherwise known as "An Act Providing for the Establishment of Congressional, City and Municipal Libraries and Barangay Reading Centers Throughout the Philippines, Appropriating the Necessary Funds Thereof and for Other Purposes by ensuring that all public libraries adhere to the demands of a globalized Filipino nation.

Republic Act No. 7743 was enacted to promote the moral and intellectual well being of the Filipino by increasing the literacy rate and emphasizing the significant role of education in nation-building through the establishment of public libraries and/or reading centers in all local government units. Over a decade after the law's enactment, only 1,136 libraries have been established. This figure is only a fraction of the libraries and/or reading centers that need to be set up in the 41,980 barangays and 1,618 cities and municipalities in order to purpose the goals of the law.

In 2007, the Department of Education procured and distributed 105.7 million textbooks to public schools for key subjects like English, Mathematics, and Science, to be used by 17 million elementary and secondary Filipino students from public schools. Clearly then, these figures show that the available reading materials are insufficient to answer the requirements of Filipino students. If RA No. 7743 was properly enacted, the libraries and/or reading centers could augment the lack of textbooks in public schools through other printed materials and encourage the passion for reading and seeking new knowledge.

This bill answers that need by ensuring that funds necessary to implement the law are provided for and increased annually until all cities and municipalities have access to full electronic library facilities.

Likewise this proposed measure requires development council of each city or municipality to make sure that their library centers and/or reading centers have the latest technological equipment needed to provide electronic library services. There is a need to equip public libraries with the latest computer and electronic library facilities to ensure that Filipino students have access to a wide variety of up-to-date learning materials.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
