S. No. 1729

EXPLANATORY NOTE

Automated Teller Machines (ATMs) benefit the public by providing them with convenient access to cash wherever and whenever the need arises. With the advancement in technology, some banks, through arrangements with other banks or ATM affiliates, now allow their clients access to their accounts through other banks' ATMs. In addition, other transactions such as deposits, fund transfers, and bill payments which have traditionally been done in banks can now be done through the use of ATMs.

All this convenience, however, comes with a price. Some financial institutions charge their client for ATM transactions without the latter even being aware of the amount of the charge, much less the fact of the charge, until he receives his periodical bank statement. By then, it will have been too late for him to take steps to avoid the charge.

This bill seeks to protect ATM users from hidden charges by requiring financial institutions to inform their clients, either by prior written notice or on the screen of the ATM prior to the completion of the transaction, of the fee that they may incur should they chose to undertake a particular ATM transaction. It also seeks to restrict the possible transaction fees that such financial institutions may charge for certain ATM transactions.\*
