

FOURTEENTH CONGRESS OF THE REPUBLIC)
 OF THE PHILIPPINES)
 First Regular Session)

7 OCT 16 P6:11

SENATE
 S. No. 1754

RECEIVED BY:

Introduced by Senator Miriam Defensor Santiago

EXPLANATORY NOTE

The Constitution, Article II, provides:

Section 15. The State shall protect and promote the right to health of the people and instill health consciousness among them.

Body piercing is puncturing through any part of the body by a needle, after which a piece of jewelry is inserted into the puncture. On the other hand, a tattoo is a puncture wound made deep into the dermis layer of the skin after which it is filled with ink.

Oral or tongue piercing is on the rise and of concern to health personnel are risks resulting from the procedure, which include damage to dentition, infection, speech impediment, and nerve damage. These risks occur as a result of the trauma incurred from a barbell inserted during tongue piercing. Body piercing is no safer. Health experts say that people who undergo body piercing risk bacterial infection, bleeding, and local trauma. Body piercing has also been found as a substantial risk factor in acquiring Hepatitis B and C, and even HIV.

Moreover, those who suffer from diabetes and haematopoietic abnormalities (such as Thrombocytopenia, neutropenia, and anaemia), haemophilia, and keloids make poor candidates and should therefore be warned before the procedure itself, of the possible effect of body piercing and tattooing on their medical condition. After the procedure, again many complications may arise for those with pre-existing medical conditions such as chronic infection, uncontrollable or prolonged bleeding, scarring, Hepatitis B and C, tetanus, skin allergies, abscesses or boils; and inflammation or nerve damage may result because of these procedures and if carried out by unlicensed artists in unsanitary conditions.

This bill seeks to restrict body piercing and tattooing only to licensed body piercing specialists or tattooists, and the location where such procedures are to be performed only to body piercing studios and tattoo studios.*
