Senate Bill No. 792

RECEIVED BY: 

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

The flow of public information in the Philippines is very much limited to those areas which have adequate communications systems. This however should not deprive those residing in the rural countryside from gaining access to information on government-sponsored projects. It is a must therefore that government-owned-and-controlled corporations and agencies set aside part of their advertising expenditures to advertise in regional, provincial, municipal and city publications and radio stations.

This bill seeks to address the need to improve on the existing public information system to accommodate more of the Filipinos' public opinion.

In view of the foregoing, passage of this bill is earnestly recommended.
