

FIFTEENTH CONGRESS OF THE  
REPUBLIC OF THE PHILIPPINES  
First Regular Session

SENATE  
OFFICE OF THE SECRETARY

SENATE  
Senate Bill No. 1121

---

INTRODUCED BY HON. MANNY VILLAR

---

### EXPLANATORY NOTE

The alarming rise in the country's crime rate makes it compelling for agencies and personnel involved in the criminal justice system to have the scientific and medical capability to evaluate and analyze physical evidence. Though efforts of prosecution lawyers and law enforcers are directed towards the solution of crimes, it has become imperative to develop a corps of professional experts in forensic investigations.

The proposed bill seeks to establish a Forensic Science Institute in the University of the Philippines system for the purpose of providing competent, scientific and modern technical services and advanced medical facilities for the detection and investigation of crimes.

Furthermore, the establishment of a Forensic Institute in the UP System will address concerns on the objectivity of cases solved by the Philippine National Police and the National Bureau of Investigation. Though the integrity of both PNP and NBI is not in question, we know that these institutions operate crime laboratories that perform physical evidence analyses and examination. Both however, are also involved in the prosecution of crimes that, expectedly, results in findings which tend to corroborate their theory of cases under investigation.

The University of the Philippines will be in unchallenged position of conducting professional work though modern scientific methods and instrumentation of forensic investigation.

Establishing a Forensic Science Institute in the state-run university, known for its commitment in upholding academic truth and excellence will help immensely in crime solution.

In view of the foregoing, the passage of this bill is earnestly sought.
