

FIFTEENTH CONGRESS OF THE REPUBLIC)
OF THE PHILIPPINES)
First Regular Session)

SENATE
OFFICE OF THE SECRETARY

10 AUG -2 P436

SENATE
S. No. 2279

RECEIVED BY: 

Introduced by Senator Miriam Defensor Santiago

EXPLANATORY NOTE

The Constitution, Article 13, Section 11, provides:

The State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health, and other social services available to all the people at affordable cost. There shall be priority for the needs of the underprivileged sick, elderly, disabled, women, and children. The State shall endeavor to provide free medical care to paupers.

The Administrative Code, Book 4, Title 9, Section 3, empowers the Department of Health to define the national health policy and formulate and implement a national health plan within the framework of the government's general policies and plans. One of the aspects of medical care delivery systems that the government should focus on is the trauma care components of such systems. This way, the number of death and disabilities resulting from incidents of physical trauma can be substantially reduced by improving these medical care delivery systems.

This bill seeks to improve emergency medical services and trauma care by: (a) empowering the Department of Health to identify designated trauma centers, (b) establishing a National Clearinghouse on Emergency Medical Services and Trauma Care; and (c) providing for standards with respect to trauma care centers.¹

MIRIAM DEFENSOR SANTIAGO
