SENATE BILL NO. 3032

INTRODUCED BY SENATOR JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

The justice system is depicted by the blindfolded woman holding the scale. Generally symbolizing the impartiality, equality and integrity that should comprise the manner justice system is served.

But it is, likewise, clear such symbol characterizes the approximation that the system, at best, exerts to go nearest to true justice. Thus in reality the justice system is far from perfect. There will always be mistakes in its administration. And therefore, it is incumbent upon the state to make sure that discovery of errors in the justice it stands for be corrected. It is just and fair, after all under the doctrine of PARENS PATRIAE, the state is the caring parent, especially for all those not so privileged.

Justice simplistically defined by Aristotle is, "to give someone his due". On the basis of this, it is but due to compensate those who have been victims of erroneous justice particularly those wrongly jailed.

In view of the foregoing the passage of this bill is earnestly sought.
