**EXPLANATORY NOTE**

Article XIV Section 1 provides that the State shall protect and promote the right of all citizens to quality education at all levels, and shall take appropriate steps to make such education accessible to all. However, recent data prove contrary to this policy.

Out of the six million students who were able to enter high school, only 2.4 million or 60 percent entered college in 2002-2004. While graduation rate among high school students was pegged at 90.62 percent in that year, cohort survival rate from 1<sup>st</sup> year to 4<sup>th</sup> year college was only 63.88 percent. Completion rate was even lower - only 58.62 percent.<sup>1</sup> Moreover, in June 2004, the Wallace report pegged college dropout rate at a staggering all-time high of 73 percent. The United Nations Educational, Scientific and Cultural Organization (UNESCO) National Commission of the Philippines, on the other hand, reported a measly 22 percent overall student survival from 1st to 4th year college.<sup>2</sup>

The continuing increase in the cost of tertiary education, inadequate government expenditure on education, continuous surge in oil and food prices compounded by the looming economic recession will only seek to exacerbate this alarming statistics unless firm political will is exercised and appropriate state intervention is put in place. In this light, this measure seeks to provide scholastically deserving graduates of public and state-supported highschoools the opportunity to enjoy their right to higher education and subsequently, a better quality of life. It is hoped that the passage of this measure shall see more poor but deserving high school graduates, who view high school as a dead end, having access to higher education.

In view of the foregoing, immediate approval of this measure is earnestly sought.

  
ANTONIO "SONNY" F. TRILLANES IV  
Senator
