REPUBLIC OF THE PHILIPPINES )  
Second Regular Session )

SENATE

S.B. NO. 3166

#### EXPLANATORY NOTE

In the 1993 case of *Oposa v. Factoran*<sup>1</sup> the Supreme Court recognized the concept of *inter-generational equity*, upholding the rights of minors to sue for the judicious management of our country's forests and the necessity of maintaining a sound ecological balance and protecting and enhancing the quality of the environment in accordance with Sections 15 and 16, Article II of the 1987 Constitution.

Recognizing that a system of inter-generational equity involving both rights and responsibilities may be substantially more effective in achieving the twin goals of environment protection and sustainable development, this bill seeks to impose a positive duty upon all graduating elementary, high school and college students to plant at least ten (10) trees as a prerequisite for graduation. These trees shall be their legacy to the environment and to future generations.

Indeed, while we recognize the right of the youth to a balance and healthful ecology, as proclaimed in the 1987 Constitution, there is no reason why they cannot be made to contribute in order to ensure that this would be an actual reality.

With over 12 Million students graduation from elementary and nearly 5 Million students graduation from high school<sup>2</sup> and almost 500,000<sup>3</sup> graduating from college each year, this initiative, if properly implemented, will ensure that at least 175 Million new trees would be planted each year. In the course of one generation<sup>4</sup>, no less than 5.25 Billion trees can be planted under this initiative. Even with a survival rate of on ten percent (10%), this would mean an additional 525 Million trees would be available for the youth to enjoy, when they assume the mantle of leadership in the future.

This bill also aims to complement Executive Order No. 26, Series of 2011, issued by his Excellency, President Benigno S. Aquino III, which aims to mobilize students and government employees to plant 1.5 Billion trees over a period of six (6) years, from 2011 to 2016.

In view of the foregoing, immediate passage of this bill is earnestly requested.

ANTONIO "SONNY" F. TRILLANES IV  
Senator
