Senate Bill No. 3357

Introduced by Senator Teofisto "TG" Guingona

EXPLANATORY NOTE

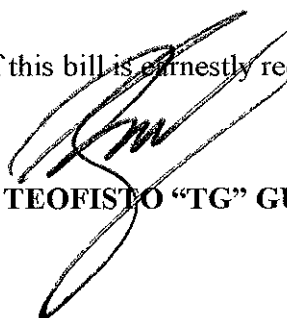

The 1987 Constitution mandates Congress to delineate forest lands and national parks, and to distribute alienable lands to qualified applicants to achieve the goals of national economy.

In Palawan, however, this Constitutional decree has been sadly ignored or set aside in favour of other equally important measures and due to scarcity of funds, thus leaving vast tracts of land still unclassified and unutilized.

It is in this context that, after due deliberation, a parcel of land in Barangay Marcilla of Coron, Province of Palawan, became the subject of possible reclassification for a simple timberland into an alienable and disposable land.

The goal is to cause said land to be allocated to and utilized by responsible individuals or entities who will be able to use the property for the benefit of the nation.

For the foregoing reasons, the immediate passage of this bill is earnestly requested.
