S. No. 289

RECEIVED BY: 

Introduced by Senator Ramon "Bong" Revilla, Jr.

EXPLANATORY NOTE

The changing times of today requires a better, more comprehensive and stronger legislation for our country. The need to amend the Executive Order No. 1037, Series of 1985 of the Philippine Retirement Park System is of vital importance to our country's economy. Since its enactment 20 years ago, it has not been updated to better suit the needs of our time today, and most especially the needs of the elderly by which it was enacted for.

The Philippine Retirement Park System or commonly known as the Philippine Retirement Authority (PRA) seeks to revitalize the Philippine economy through the increase and creation of local jobs, increase financial investments from other countries through retirement plans in the Philippines by retiring foreigners.

The Philippine Retirement Authority as a government corporation was to carry out the job of attracting retirees, foreigners and former Filipinos to spend their retirement years in the Philippines. With the strengthening of the PRA provision, it will assist the retirement industry for foreign nationals and Filipino citizens as it will encourage the economy to generate more employment and income opportunities and facilitate the increasing foreign exchange inflow, investments and technology transfers.

As such, strong incentives, such as Balikbayan privileges and permanent resident status, among others, will be given for foreign nationals and former Filipinos not just to have a vacation or reside in the Philippines but also to invest in businesses in the country. In addition, the amendment of the PRA provision will encourage and protect local and foreign investors, thus creating an impression of financial security in the country. Additionally, the appeal of the Philippines as hospitable country with a favorable weather, and its low cost of living will boost domestic tourism.

The PRA statistics show that as of July 2009 there are 14,806 PRA program enrollees. Most of these nationalities enrolling under the PRA program are of Chinese, Korean, Japanese and American descent. With the number of enrollees, we must therefore pursue the changes in our legislation that will seek to help our economy, especially in times of need that will bring progress and security not just to our country but also to the people living in it.

Thus the immediate approval of this bill is urgently sought.
