SENATE
Senate Bill No. 299

RECEIVED BY: *[Signature]*

Introduced by Senator Cynthia A. Villar

EXPLANATORY NOTE

It is a priority emblazoned by the Constitution to protect the nation's marine wealth in its archipelagic waters so that ultimately, the right to use the same can be enjoyed by Filipino citizens.

The call to protect our rivers comes at an even louder voice today. For example, recent studies have shown that one of our rivers —the Marilao River— is among the dirtiest rivers in the world, filled with excess levels of dangerous heavy metals such as chromium, cadmium and lead. It has also recorded zero dissolve oxygen levels and high levels of organic pollution. Similarly, the Pasig River is in the same state, and is still visibly among the dirtiest river systems in the country.

By mandating each city or municipality that has a river system to create a River Development Authority, we can be assured that protection can be given to our river systems and ultimately, to our countrymen, as the protection of the river entails not only the protection of marine wealth and life, but also the protection of a source of livelihood, food, and even rest and relaxation. Henceforth, the passage of this legislation is earnestly sought.
