Senate Bill No. 511

Introduced by Senator Cynthia A. Villar

EXPLANATORY NOTE

To be able to bring out the best in students, it is my humble opinion that only the best teachers will be able to bring them out.

This legislation that is being sought to be passed does not seek to provide for the best teachers to teach in educational institutions; it seeks to provide for the most passionate teachers to teach, and so, ensures that it will bring out the best in the students accordingly.

Passion can be said to be an existing trait in these former students because, knowing that the students they are teaching came from the very situation that they were once in, their passion to teach will be unmatched, as it will be incumbent upon them to make sure that the maximum learning and knowledge shall be inculcated upon these individuals.

If passion and learning coincide, the only benefit it will bring are good benefits that will inure to our countrymen in general, and the students in particular.
