S. NO. 918

RECEIVED BY: 

Introduced by Senator Antonio "Sonny" F. Trillanes IV

EXPLANATORY NOTE

Diseases are inevitable part of the lives of the people. For this, Article II Section 15 of the Philippine Constitution declares that, "The State shall protect and promote the right to health of the people and instill health consciousness among them".

However, it is known to everyone that a healthy physical condition of every individual is not always at a guarantee especially these days. In most cases, those who can not afford to finance themselves are the ones usually hit by worst kinds of illnesses such as organ failure. Sometimes, organ transplantation is often the only treatment for end state organ failure. Hence, organ donation has become a necessity in this changing world.

According to the World Health Organization, human material for transplantation is mostly obtained from a deceased donor. Yet, despite the frequent use of materials donated from deceased donors, the donation of materials from living donors is necessary for some types of transplants to compensate for the limited supply of material available from deceased donors in order to meet patient needs. Living donation is thus practiced despite the fact that it involves risks for the donor that may not be negligible.

This bill seeks to acknowledge the donor employees who willingly offer organ, bone marrow, blood, or blood platelets through entitling them to an organ donation leave with pay.

Thus, the immediate approval of this bill is earnestly sought.
