Senate Bill No. 1061

RECEIVED BY: *ja*

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

The proposed bill urges to help maintain the equilibrium of life in our environment. This will prohibit the trade or export of wildlife whether fish or plant of whatever species dead or live, belonging to either endangered or threatened species. The definition of terms embodied in Section 2 of the Act was borrowed from the United States Endangered Species Act of 1973.

It is very important that we take care of our nature and wildlife so that in the nearby future, our children will be able to appreciate it. In addition to this, this Act will also promote the quality of life of the endangered or threatened species in our country.

This piece of legislation will surely close the doors to those individuals or groups who are engaged in trade or export wildlife or whatever species, whether dead or alive.

Hence, the approval of this bill is earnestly needed.
