SENATE

S. No. 1166

RECORDED BY: 

Introduced by Senator Antonio "SONNY" F. Trillanes IV

Explanatory Note

The barangay is the basic political unit of our nation. It serves as the primary planning and implementing unit government policies, plans, programs, projects and activities in the community. It is the most direct avenue for the delivery of services to the citizenry.

Under the Local Government Code, the cities and municipalities are the present focus of development in our country. A major part of the allocation from our internal revenues is earmarked for infrastructure development of the barangay, ultimately impeding the delivery of basic services to the people. Consequently, the impetus to national development is affected and almost all theory of development especially the "Trickledown theory" is just that, a trickle development.

There are more than 40,000 barangays in our country. With this proposed measure, the Government shall appropriate a seed fund of twenty billion pesos (Php 20,000,000.00) to accelerate the development of all our barangays as the primary political-economic unit of our nation within a twenty-year period. A continuing development program for all barangays shall be undertaken in accordance with a national master plan for the development of all barangays. The program shall address the different needs on every barangay from physical infrastructure to economic infrastructure which shall ultimately make the barangay an economic unit and thus become the primary engine of growth for national development.

Approval of this bill is earnestly sought.
