**AN ACT
REQUIRING ALL NATIONAL, REGIONAL, AND PROVINCIAL GOVERNMENT
HOSPITALS TO ESTABLISH, OPERATE AND MAINTAIN A DIALYSIS WARD
OR UNIT IN THEIR RESPECTIVE HOSPITAL AND PROVIDING FREE DIALYSIS
TREATMENT TO INDIGENT PATIENTS**

EXPLANATORY NOTE

The Department of Health (DOH) has expressed alarm over the rising cases of kidney disease—now the country's 7th leading cause of death. Based on the data from the DOH's Philippine Network for Organ Sharing, close to 23,000 patients underwent dialysis treatment due to kidney failure in 2013, a huge jump from the 4,000 cases recorded in 2004. This figure, the DOH noted, does not include those suffering from kidney failure but who are not able to undergo dialysis treatment due to its high cost and inaccessibility especially in the rural areas.

Patients from the provinces, who are suffering from kidney disorder, have to travel all the way to urban cities just to avail themselves of dialysis treatment, which is needed on a regular and sustained basis. The optimum frequency of dialysis is three times a week but because of its high cost and inaccessibility, some patients settle with less but with their health deteriorating more progressively. Worse, some patients have died without given a chance to undergo dialysis because they could not afford it.

In line with the government's efforts to reform the health sector and provide Filipinos with comprehensive health services, local government units must be tapped to make healthcare services more affordable and accessible. Thus, this bill requires all national, regional and provincial government hospitals to establish, operate and maintain a dialysis ward or unit to ensure that dialysis treatment will be available, accessible and cost-effective especially to those living in the rural areas. Moreover, this bill requires that dialysis treatment be provided to indigent patients free of charge.

The aim of this bill is in consonance with the Constitutional mandate to make health services available to our countrymen at affordable cost. For more efficient delivery of healthcare services to the Filipino people, the immediate approval of this proposed measure is earnestly sought.
