

THIRTEENTH CONGRESS OF THE REPUBLIC
OF THE PHILIPPINES
First Regular Session

SENATE
OFFICE OF THE SECRETARY

04 JUN 30 10:16

SENATE
S. No. 1067

RECEIVED BY: 

Introduced by Senator Edgardo J. Angara

EXPLANATORY NOTE

In 1998, 9.2% of our Filipino children of pre-school age were underweight. 7.2 % of them were wasted, and 5.4% of them were stunted. In the long-term, these children are more susceptible to infection and disease, and usually with more serious outcomes due to the effects of malnutrition. Consequently too, they absent themselves from school more frequently and have lower scholastic performance.

Malnutrition cuts across all island groupings. Western and Eastern Visayas, Southern and Central Mindanao, Bicol and even parts of the NCR have prevalence rates of underweight over 13%. In addition, over 30% of all children under the age of 5 years suffer from anemia.

The most effective means to target childhood malnutrition is through the public school network. Unfortunately, although there are current school feeding programs administered by the Department of Education, Culture and Sports, these programs rely heavily on allocations from budgets of senators or congressmen, or donations from private individuals and corporations. There is therefore an urgent need to immediately provide for an institutionalised and legislated child nutrition program targeting public elementary schools throughout the country.

Through the Child Nutrition Act, a budgetary allocation shall be made to institutionalise a School Feeding Program throughout the public elementary school network, incentives shall also be given to private companies donating milk, juices, food and the like to the School Feeding Program.

For the abovementioned reasons, the immediate approval of this bill is earnestly sought.

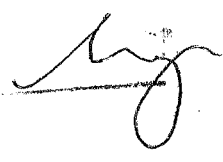

EDGARDO J. ANGARA

THIRTEENTH CONGRESS OF THE REPUBLIC }
OF THE PHILIPPINES }
First Regular Session }

SENATE

S. No. 1067

BY: 

Introduced by Senator Edgardo J. Angara

AN ACT
PROVIDING FOR A SCHOOL NUTRITION PROGRAM AND FOR OTHER
PURPOSES

Be it enacted by the Senate and the House of Representatives of the Philippines in Congress assembled:

Sec. 1. Short Title. – This Act shall be known as the “Child Nutrition Act of the Philippines.”

Sec. 2. Purpose. In recognition of the demonstrated relationship between food and good nutrition and the capacity of children to develop and learn, school feeding and other child nutrition programs shall be extended, expanded, and strengthened under the authority of the Secretary of Agriculture as a measure to safeguard the health and well-being of the nation’s children, and to encourage the domestic consumption of agricultural and other foods in order to meet more effectively the nutritional needs of our children.

Sec. 3. School Feeding Program. A school nutrition program (the “Program”) is hereby established, where the National Nutrition Council (“NNC”), the Department of Education, (“DepED”) and the Department of Health (“DOH”) shall initiate, maintain and expand a system of distribution of milk and fortified snack foods to public elementary school entrants for a minimum of one hundred twenty (120) feeding days, five (5) times a week and vitamin supplements for a period and in such dosages as may be determined by the DOH. The Program shall be administered inside the classroom. The Program likewise aims to make school entrants aware of the importance of good nutrition by providing relevant and user-friendly nutrition information and education materials. Provided, that the Program shall begin within the first two weeks of the school year.

For purposes of this act, a school entrant is defined as a student enrolled in the first grade.

Sec. 4. Objectives of the Program. The Program shall:

- (1) Provide fresh milk to public elementary schools through the cooperation of local cooperatives and dairy corporations;
- (2) Provide vitamin supplements in such dosages and for such a duration as the DOH may determine most beneficial to the child’s health and nutritional well-being;
- (3) Target all public school entrants regardless of their nutritional status;
- (4) Each school entrant will receive milk and fortified snacks, based on a menu determined by the NNC in conjunction with the Department of

Science and Technology to consist of a combination of foods meeting the minimum nutritional requirements on the basis of tested nutritional research, except that the minimum nutritional requirements shall be measured by not less than the weekly average of the nutrient content of the meals;

- (5) Beneficiaries shall eat their snack inside the classroom during recess time and shall not be allowed to bring home his ration; Provided, that if a school child was absent, the school feeding coordinator in the school shall insure that his share for that day shall be added to his share the next feeding day when he reports back to class; Provided, further, that only twice the usual serving portion shall be allowed to an absentee school child; Provided, finally, that in case of prolonged absence, both the milk and/or snack food shall be given on a staggered basis, doubling his share every feeding day until the school child catches up with the others;
- (6) Beneficiaries shall take their vitamin supplements inside the classroom simultaneously with the fortified snack.

Section 5. Incentives to Private Companies. Local dairy cooperatives, private agricultural companies and other companies donating food, milk, juices, vitamin supplements or other similar products (the "**Product**"), are hereby allowed to deduct from its gross income earned two hundred percent (200%) of the value of the Product, provided that:

1. the donation is duly approved by the Secretary of Education, Culture and Sports upon recommendation of the Director of the NNC, in case of food products, and the Secretary of Health, in case of vitamin products; and
2. the deduction shall not exceed twenty percent (20%) of gross income earned.

Section 6. Social Mobilization and Preparation. Orientation-training shall be held among DECS health and nutrition unit personnel at the regional and division levels, in order to orient them on the Program's objectives and mechanics and generate support to the Program.

An orientation-workshop shall be conducted at the district and school levels for district and school level heads. The output shall be the school plan of action containing the roles and responsibilities of the concerned school personnel.

Training and orientation shall be conducted by the DECS core of trainers, with personnel trained at the schools division level being responsible for training staff at the district and municipal level; and those trained at the municipal level training the implementers and feeding coordinators at the school level.

The feeding coordinator shall conduct the briefing among parents and children, including determining the baseline knowledge of the children and their parents on nutrition through a pre-test and delineating the roles among parents during the duration of the feeding.

Feeding paraphernalia consisting of placemats, napkin, spoon and fork, small bowl, saucer, mugs and drinking glass should be brought by the pupils

Section 7. Simultaneous examination. A simultaneous health and dental examination and deworming of the participating children shall be done during the meeting-orientation of parents. These shall be conducted by the division/district medical staff and nurses or the Rural Health Unit in the community. Pupils found

with defects/ailments shall be given proper treatment or referred to hospitals. Classroom advisers shall note observations regarding the pupils' health condition. Height and weight of pupils shall be taken before the Program and every month after the start thereof.

Section 8. Procurement, Storage and Handling of Food Items and Vitamin Supplements. Procurement of the fortified snack foods shall be done by DECS in coordination with the NNC, and in cases where rice or sugar will be distributed, in coordination with the National Food Authority (NFA), while that of fresh milk shall be procured by the National Dairy Authority (NDA). Vitamin supplements shall be procured by the DOH.

All public elementary schools shall submit to DECS the number of school entrants expected by April 15 of each year. The list shall be consolidated by DECS and used as a basis for procuring fortified snack foods. DECS shall insure the food commodities arrive on time to the schools through the district schools, which shall be the designated pick-up point. Public elementary schools shall pick up the commodities after the fifth day of each month even without notice from the district school.

DECS shall furnish the DOH with the number of school entrants per district by April 30 of each year. The list shall be used by the DOH as a basis for procuring vitamin supplements. DOH shall insure delivery to the district school of vitamin supplements needed for that district within the first five (5) days of each month.

For the fresh milk, DECS shall furnish the NDA with the number of children per school located in the twelve (12) key dairy development areas of the country, with local dairy cooperatives delivering fresh milk daily to schools to insure freshness and safety. The NDA shall make payment upon the local dairy cooperative upon submission of a certification issued by the public elementary school stating that fresh milk was received in good condition. The fresh milk should be individually packed in sealed plastic, provided with straw and properly packed in ice to avoid spoilage during transport. Provided, that the local dairy cooperative shall be responsible to insure the safety of the fresh milk before it reaches the school.

Section 9. Role of the Secretary of Agriculture. The Secretary of Agriculture shall provide technical assistance and training, including technical assistance and training in the preparation of foods high in complex carbohydrates and lower-fat versions of foods commonly used in the Program, to schools participating in the Program to assist the schools in complying with the nutritional requirements prescribed by the NNC in coordination with the DOST and in providing appropriate meals to children with medically certified special dietary needs.

Section 10. Use in Program of food in abundance or donated. Each school participating under the Program shall, insofar as practicable, utilize in its Program foods designated from time to time by the Secretary of Agriculture as being in abundance, either nationally or in the school area, or foods donated by private entities with the consent of the DECS and NNC. Provided, that smuggled agricultural products which have been seized by the proper authorities and which are certified by the DOH as fit for consumption may be donated by the proper authorities for this Program.

Section 11. Local Government Participation. Local Government Units where school districts are located shall provide a counterpart fund of at least

twenty percent (20%) of the cost incurred for Programs implemented within their jurisdiction.

Section 12. Priority Areas. In case of shortage of funds, the implementation of the Program shall first be undertaken in provinces where malnutrition rates are most severe, as may be determined by the NNC.

Section 13. Rules and Regulations. The DECS, NNC and DOST shall draw the implementing rules and regulations of this Act within thirty (30) days from the effectivity of this Act.

Section 14. Appropriations. An initial sum of One Hundred Million Pesos (P 100,000,000.00) is hereby appropriated for the first year of implementation of the Program. Thereafter, all appropriations shall be taken from the annual appropriations of the NNC. Provided, that all administrative expenses of the Program shall be taken from the DECS annual appropriations.

Section 15. Effectivity. This law shall take effect within fifteen (15) days from publication in a newspaper of general circulation.

Approved.
