SENATE
S. Joint Res. No. 17

RECEIVED BY: 

Prepared by the Committee on Urban Planning, Housing and Resettlement with Senator Joseph Victor G. Ejercito as author.

**JOINT RESOLUTION
ORDAINING A GLOSSARY OF SIGNIFICANT HOUSING TERMINOLOGIES FOR
THE ADHERENCE BY THE KEY SHELTER AGENCIES, OTHER APPROPRIATE
AGENCIES OF GOVERNMENT, AND OTHER HOUSING AND URBAN
DEVELOPMENT STAKEHOLDERS**

1 **WHEREAS**, Section 9, Article XIII of the 1987 Philippine Constitution mandates
2 the State, by law, and for the common good, to undertake, in cooperation with the
3 private sector, a continuing program of urban land reform and housing which will make
4 available at affordable cost, decent housing and basic services to underprivileged and
5 homeless citizens in urban centers and resettlement areas;

6
7 **WHEREAS**, there exist various housing programs enacted through different laws
8 that are intended to address the need for affordable and decent housing, but the lack of
9 a standardized definition of significant housing terminologies, characterized by the
10 ambiguous and conflicting definition of terms essential to housing, creates confusion
11 among government agencies, the private sector, and other housing stakeholders;

12

1 **WHEREAS**, this basic problem not only engenders divergent interpretation of
2 various housing data which causes an inaccurate appreciation of the housing problems
3 and challenges, eventually resulting in ill-informed planning and inappropriate housing
4 interventions by both the government and the private sector;

5
6 **WHEREAS**, the Committee on Housing and Urban Development of the House of
7 Representatives and the Committee on Urban Planning, Housing and Resettlement of
8 the Senate recognize the imperative of formally ordaining and publishing a glossary of
9 significant housing terminologies, standardizing the respective definitions of significant
10 housing terms that will serve as a benchmark, for the guidance of the legislature and for
11 adherence by the key shelter agencies, other appropriate agencies of government, and
12 other housing and urban development stakeholders in order to finally provide a common
13 framework and lend certitude to the discussion and resolution of housing and urban
14 development concerns:

15
16 **NOW, THEREFORE**, be it *Resolved by the Senate and the House of*
17 *Representatives in Congress assembled*, to ordain a glossary of significant housing
18 terminologies, standardizing their respective definitions for adherence by the key shelter
19 agencies, other appropriate agencies of government, and other housing and urban
20 development stakeholders.

21
22 **Section 1. General Objective.** - This Glossary of Significant Housing
23 Terminologies aims to provide all stakeholders of the housing and urban

1 development sector -- the key shelter agencies, other appropriate agencies of
2 government, and other stakeholders -- a first of many steps towards addressing
3 their collective housing and urban development problems and challenges. By
4 formally defining terms that are commonly used in the sphere of housing and
5 urban development, the glossary aims to minimize, if not completely eliminate,
6 confusion that stems from the stakeholders' nuanced use, understanding, and
7 the context of housing and urban development terminologies.

8
9 **Section 2. Definitions and Categories of, and Limitations on Significant**
10 **Housing Terminologies Included In the Glossary.** - The definitions provided in
11 this Joint Resolution set forth the meanings understood and shared by
12 stakeholders in the housing and urban development sector. Rational caution was
13 exercised to include all possible terminologies and definitions, but in view of the
14 inter-disciplinary nature of the sector, the terms and definitions that were deemed
15 generic and more appropriately defined in other fields such as law, economics
16 and finance were excluded.

17
18 This Glossary of Significant Housing Terminologies is the product of a
19 participatory process where stakeholders consisting of 15 agencies or
20 organizations contributed a definition each for 379 terms.

21
22 This glossary is categorized in two, namely:

(a) National Terminologies - this category contains terms whose respective definitions are either supported by national laws or have reached general acceptance.

(b) Operational Terminologies - this category contains terms whose respective definitions are generally sourced from administrative issuances, the usage and citation of which should be made specific to and in the context of a project, program or framework. These terms are compiled hereunder for reference purposes only.

The operational terminologies may be updated and/or re-defined by relevant government agencies, pursuant to their respective mandates.

Moreover, similar terms are identified and their cross references noted.

Finally, while this glossary may appear comprehensive, the collection of terminologies is limited to those that have achieved common acceptance. To address the evolving language of the sector, a periodic review of the document is deemed expedient.
