**AN ACT  
ESTABLISHING A DETENTION PROGRAM AND FACILITY FOR HIGH-  
LEVEL DRUG OFFENDERS WITHIN THE NATIONAL PENITENTIARY  
SYSTEM UNDER THE BUREAU OF CORRECTIONS, APPROPRIATING  
FUNDS THEREFOR AND FOR OTHER PURPOSES**

**EXPLANATORY NOTE**

Recent news events prove and confirm the failure of the present treatment program and detention security measures of the Bureau of Corrections in the matter of containing and preventing high-level illegal-drugs inmates from continuing their possession, trading and trafficking of illegal drugs while under detention. This circumstance is an area of grave concern for government in particular and the whole Philippine society. As recent as the previous months of 2016, after a series of inspections/raids of the premises of the New Bilibid Prisons, several contraband items, including prohibited drugs, were confiscated. These incidents prove that convicted drug lords could continue their illegal drug business inside the premises of the national penitentiary, probably with the aid of regular inmates with whom they are commingled.

The philosophy of penology recognizes the need to classify the prisoners into reasonable categories for rehabilitation, treatment and protection of society. This is one of the mandated responsibilities of the Bureau of Corrections in safekeeping inmates and completely incapacitating them, especially high-level illegal-drugs offenders, while serving their sentences.

In light of these principles, and conscious of recent news events and circumstances evidencing the failure of the Bureau of Correction on the matter of the security of high-level illegal drug offenders and inmates, the following bill is hereby proposed to operationalize the concept that "*different categories of prisoners shall be kept in separate institutions or parts of institutions, taking account of their sex, age, criminal record, the legal reason for their detention and the necessities of their treatment...*" The Bureau of Corrections Act of 2013, provides thus:

*"SEC. 5. x x x (c) ...inmates shall also be internally classified by the DRD and segregated according to crimes committed based on the related penal codes such as Crimes Against Persons, Crimes Against Properties, Crimes Against Chastity, so on and so forth, as well as by other related Special Laws, Custom and Immigration Laws..."*

The purpose of this bill, other than to decongest existing penal institutions and accommodate the increasing number of inmates committed to the existing seven (7) prison and penal farms, is to prevent the taking advantage of lax general rules for all inmates that allow high-level illegal-drugs offenders to continue their nefarious activities. The aims of this measure are:

1) To keep the high-level illegal-drugs offenders in a separate penal facility and sever any existing influence on other inmates; and,

2) To provide the high-level drug-offenders who are drug dependents themselves an effective drug rehabilitation program as an essential part of their reformation in preparation for their life outside of the penitentiary. Thus, the passage of this bill will strengthen the nation's fight against drug crimes.

In this context, passage of the measure is earnestly requested.
