SENATE

S. B. No. 13

Introduced by Senator FRANKLIN M. DRILON

**AN ACT MODIFYING THE COMPENSATION AND POSITION
CLASSIFICATION SYSTEM OF CIVILIAN GOVERNMENT PERSONNEL
AND THE BASE PAY SCHEDULE OF MILITARY AND UNIFORMED
PERSONNEL IN THE GOVERNMENT**

EXPLANATORY NOTE

In 2015, the Senate approved on third reading the Salary Standardization Law of 2015 in response to the clamor for an increase in compensation and benefits to government personnel. Regretably, the SSL of 2015 was not enacted into law.

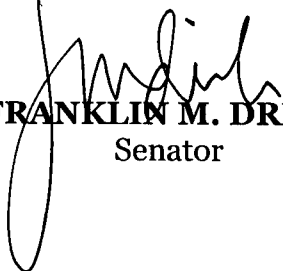

Today, we are introducing the same bill in the 17th Congress to reward our government workers and to introduce this historic reform in the governmental compensation system.

This bill mandates a three-year compensation increase for the national government's 1.53 million civilian and military and uniformed personnel. The compensation package is composed of salary increase, mid-year 14th month pay and enhanced performance-based bonus system. This piece of legislation seeks to increase the base pay of covered employees on the average by 27%, while the 14th month pay will further raise basic pay by 8%. The enhanced PBB is equivalent to 1 to 2 months' basic salary or an average 10% increase in basic pay. Government personnel who performs a greater role and carry a heavier responsibility in improving performance will receive a higher bonus.

The first tranche of the adjustment will take effect on January 1, 2017, and the subsequent two tranches on every January 1 thereafter until the final tranche in 2019. In structuring the compensation adjustment, five parameters were considered: a) Raise the minimum salary for Salary Grade 1 to Eleven Thousand Sixty Eight Pesos (P11,068) to make it even more competitive with the market rates; b) Bring the compensation of government personnel closer to their private counterparts to at least 70% of the median of the market for all salary grades; c) Eliminate overlaps in between salary grade allocations of government personnel to recognize differences in duties and responsibilities of the positions; d) Maximize the net take home pay of government

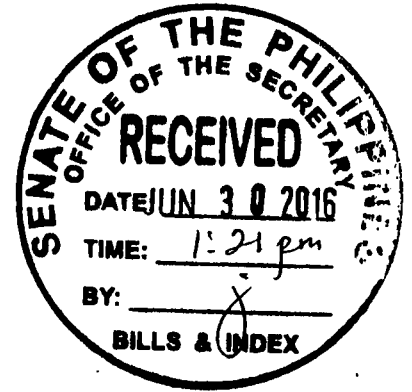

personnel through the inclusion of additional benefits; and e) Strengthen the performance-based incentive system in recognition of government personnel who play a greater role and carry a heavier responsibility in attaining performance targets and delivering results.

In view of the foregoing, the urgent approval of this bill is earnestly sought.
